For the Record
HALF YEARLY BUDGET REVIEW 2002-2003

1.0 Introduction

The Half Yearly Budget Review presents an overview of the economy for the first six months of the current financial year 2002-03. The Review, the first of its kind, is a precursor to the annual Budget Statement for 2003-04 that is to be presented to the Legislative Assembly in June 2003. The Review evaluates the performance of the economy during this period and provides a projection for the remaining six months of the financial year. Thus, the Review provides a platform for the formulation of budget policies and the strategy for the year 2003-04, the details of which will be provided in the Budget Statement.

The first six months under review is characterized by a headline fiscal deficit of \$0.1 million compared to a budget estimate for 2002-03 of \$8.7 million, increased foreign exchange reserves to 2.7 months of import coverage and an improving balance of payment situation. The agriculture sector, which still accounts for the largest share in the country's gross domestic product showed an increase in production largely contributed to by squash, vanilla and root crops. On the other hand, the decline of pa'anga against New Zealand and Australian dollars added to the inflationary pressure in the highly import-dependent economy. The inflation rate on an annualized basis reached 12.0 percent in December 2002.

On the global economic front, there is some indication that the US economy has begun to recover from the downturn experienced during the 2001-2002 periods. However the recovery has been slower than previously anticipated. The security situation in the Middle East could also have a significant negative effect on global growth both directly and indirectly through its effects on confidence.

2.0 Performance during first six months of 2002-03 - A review

2.1 Real Sector Developments

Indicators suggest that the economy showed only marginal growth during the first six months of the year over the same period the previous year. This was due to a large extent to factors, such as the weather, beyond the control of government policies.

2.2 Agriculture

Agricultural supplies in the local markets were in abundant supply throughout 2002. Provisional data on the total volumes and value sold for the period July to December 2002 stood at 1,270 metric tonnes and \$1.4 million respectively. This was relatively unchanged from the same period in 2001.

On the export front, provisional data from the Ministry of Labour, Commerce & Industries indicate that the volume squash exported in 2002 had increased to 18,144 metric tonnes compared to 13,390 metric tonnes in 2001. The average price however was much lower in 2002 than 2001. Vanilla beans exports also increased during the reported period stemming from an increase in prices which reached \$46 per kilogram, the highest ever recorded in Tonga. The export of root crops continued to increase from the high level in 2001. Kava production also increased in Vava'u and 'Eua.

2.3 Fisheries

Activity in the fishing sector was hampered severely during July to December 2002 by the impact of El Nino. However, this is expected to last only until April 2003. The downturn in the industries adversely impacted the operations of some of the main export companies, with the result that one of them went into liquidation during this period.

Largely reflecting this phenomenon, fish exports were \$4.1 million during the period July to December 2002, a decline of \$3.8 million on the \$7.9 million earned in the corresponding period in 2001.

2.4 Manufacturing

The performance of the manufacturing sector overall during the first two quarters of 2002-03 has been stagnant compared to the same period of the previous year. At the same time, some growth was recorded in the manufacturing of food and construction materials for domestic consumption, but this was not sufficient to lift the overall performance of the sector.

2.5 Construction

The construction sector continued to perform strongly in the period July to December of 2002 compared to same period in 2001. The sector is still largely dominated by and dependent upon the projects financed by external aid, although private sector activity continues to be quite strong.

2.6 Tourism

The performance of the tourism sector improved during the period under review with total air arrivals increasing by 9 percent to 20,234, compared to the same period the previous year. This was due to many factors including the more competitive level of the exchange rate as well as the development of the international service of the national airline.

2.7 Wholesale, Retail and Distribution

Indicators suggest that the wholesale, retail and distribution sector has not performed as well as some of the other sectors. The indicators suggest that activity among the largest operators in the sector declined in the second half of 2002 compared to the same period of the previous year. One of the major reasons for the decline is the continued expansion of the informal markets, which undermine demand for the products of the operators in the formal sector.

2.8 Transportation & Communication

In August of 2002, the Shoreline Group commenced operations in the telecommunications sector, providing competition to the service of the government-owned Tonga Communications Corporation. The most visible impact of competition has been the significant reduction in the costs of telecommunication services. It is anticipated that the reduction in costs will encourage a greater of demand for such services. At the same time, the limited size of the domestic market may impose constraints on the contribution by the sector to overall economic growth.

Some of the other sectors of the economy such as tourism, agriculture and fisheries also benefited from the expansion by Royal Tongan Airlines of its international services through the leasing of a Boeing 757 aircraft from Royal Brunei Airlines. Shipping services have also recorded moderate growth during the reported period.

2.9 Domestic Price Developments

For the six months period of July to December 2002, the average inflation rate was 10.2 percent compared to 9.4 percent during the same period of 2001.

The chart above indicates that the high level of inflation is attributable to the continuous high level of imported inflation and fluctuations in prices in the domestic market. Food products contributed the most to the significant increases in prices by 17.2 percent, followed by clothing & footwear (19.8 percent), household operation (11.1 percent), miscellaneous goods (9.7 percent) and then transportation (5.3 percent).

3.0 Monetary Developments

Domestic credit increased by 9.1 percent for the period July to December 2002 compared with the same period in 2001. Credit to the private sector increased by 17.1 percent, while credit to public enterprises increased by 51.3 percent. This was offset by net credit to the government declining significantly as the government became a net creditor to the banking system for the first time in many years.

Nominal annual interest rates paid on savings deposits by the commercial banks remained unchanged during the first quarter of the 2002-03 financial year. Overall in real terms, (after accounting for inflation) lending rates are positive while rates paid on deposits are negative.

4.0 External Sector Development

At the end of December 2002, the level of official foreign reserves was equivalent to 2.7 months of imports, compared with 2.5 months at the end of June 2002, and 2.3 months at the end of December 2001.

5.0 Public Finance

For the period under review, **total revenue and grants** amounted to \$43.8 million, or 41.9 percent of the \$104.6 million total estimated revenue for 2002-03. This level registered \$1.4 million higher than the \$42.4 million recorded for the same period last financial year. Of the total revenue, 81.8 percent was collected from tax revenue (of which 74 percent was customs duty), 15.1 percent from non-tax revenue and the rest were grants from donor agencies.

The efficiency of revenue collections had been mixed with the collections of tax revenue being on target. Better collections of tax revenue reflect the efforts of the Ministry of Finance to strengthen its administrative capacity by improving compliance especially for income taxes and customs duties. The Inland Revenue Department had recovered \$2 million to \$3 million of arrears during this period. On the other hand, collections from non-tax revenue such as entrepreneurial and property income (13.8 percent of budgeted target), fees and charges (32.9 percent), revolving funds (26.1 percent), grants (16.9 percent), and capital revenue (4.8 percent) were very low. The low collections from non-tax revenue may be due to some of the receipts such as dividends from government investments and license being received in the second half of the financial year. Grants and revolving funds have always average around \$3 million to \$5 million a year hence the actual received to date is around the 50 percent mark.

On the expenditure front, the government's total expenditure for the period under review amounted to \$43.9 million, or 39.0 percent of the \$112.5 million total estimated expenditure. In nominal terms, total expenditure decreased by \$0.5 million from the \$44.4 million recorded in the same period in 2001-02. The total expenditure included an additional \$2.0 million to finance the acquisition of unsubscribed shares of Royal Tongan Airlines. This amount was financed by a short-term commercial loan, while longer term financing was being explored.

Of the total expenditure, 91.3 percent were spent on current expenditure particularly wages and salary (47.4 percent), capital expenditure (2.3 percent) and lending and transfers to public enterprises (6.4 percent). It is evident from the table below that there's an improvement in the management of public expenditure, with expenditure to-date remaining within target.

The **fiscal position** as at the end of December 2002 registered an estimated headline deficit of \$0.1 million (in the GFS presentation). This is represented by an estimated outturn for total revenue and grants of \$43.8 million exceeded by the total expenditure and lending minus repayment of \$43.9 million. The small fiscal deficit highlighted the efforts by the government to tighten and improve its administration of revenue collection. However, there is concern at this stage that the overall projection of a headline deficit of the order of \$8.7 million for 2002-03 as a whole will be revised upwards due to the financing through borrowing of the additional share acquisition by the government in Royal Tongan Airlines.

6.0 Economic Outlook

The economic outlook for the rest of 2002-03 and for the next financial year 2003-04 to a large extent depends on stability in the external markets. The International Monetary Fund has predicted a more stabilized global economy through 2002-03 as major advanced economies recover from the economic downturn in 2001-02. The security situation with Iraq however, is a major threat to the global growth in particular its impact on business confidence and international oil prices.

HALF YEARLY BUDGET OUT TURN

(In million of pa'anga)	Estimate 2002-03	Provisional Jul-Dec 02/03	Actual as a % of Budgeted Target
Total revenue and grants	103,807,175	43,802,809	42.2%
Total revenue	96,356,922	42,472,487	44.1%
Current revenue	95,949,920	42,452,432	44.2%
Tax revenue	72,603,537	35,842,035	49.4%
Trade taxes	50,356,137	26,459,630	52.5%
Other taxes	22,247,400	9,382,405	42.2%
Nontax revenue	23,346,383	6,610,397	28.3%
<i>of which: revolving funds</i>	5,425,073	1,418,420	26.1%
Capital revenue	407,002	20,055	4.9%
Grants (in cash)	7,450,253	1,330,322	17.9%

(In million of pa'anga)	Estimate 2002-03	Provisional Jul-Dec 02/03	Actual as a % of Budgeted Target
Total expenditure and lending minus repayment	112,544,850	43,924,600	39.0%
Total expenditure	113,181,707	41,127,428	36.3%
Current expenditure	101,933,463	40,124,151	39.3%
Wages and salaries	52,145,677	20,833,088	39.9%
Other expenditures	48,187,786	18,712,300	38.8%
Additional expenditures	1,600,000	578,763	36.1%
Capital expenditure	11,248,244	1,003,277	8.9%
Total lending minus repayments	(636,857)	2,797,172	539.21%

Agriculture, fisheries and tourism are still considered to be the key sectors to stimulate economic growth. Their performance in the first six months had been mixed with agriculture and tourism activities performing in line with expectations whereas fisheries activity was dampened by the El Nino phenomenon.

It is projected that the second half of 2002-03 will provide positive improvement as the fisheries sector recovers and a pick up in the commerce, restaurants, and hotels activities as the tourism sector shows additional strength. The real GDP growth rate is still expected in the order of 2.5 percent.

The government's fiscal policy is under significant pressure from the need to support some of its public enterprises. This in turn has serious implications for actions needed to ameliorate continued upward inflationary pressures and further downward pressure on the international reserves. Both fiscal and monetary policy will need to be maintained at appropriate levels to conserve the level of foreign reserves at an acceptable level, and to reduce upward pressures on inflation.

The ability of the Tongan economy to rebound from natural and economic shocks is crucial if the economy is to rise from the downturn it currently experienced in the short and medium term. The success in meeting this recovery objective will depend in a large part on the success of the government's effort through the Economic and Public Sector Reform Program that targets efficient public services, minimizing administrative regulations, strengthen fiscal and financial mechanisms and freeing up of sufficient resources for private sector development.

Notes to Text

ⁱ *Talamahu Market report is the only official document on agricultural supplies sold in the domestic market. It includes detail statistics in terms of volume (ton), value and unit price of agricultural products sold in the market. These are in the sub-group of root crops, banana, fruits, vegetables and other crops. This report however does not include products sell at Veitongo mini-market and road stalls, which increased significantly in year 2002.*

ⁱⁱ *There are three different sources for squash statistics. Firstly is the Statistics Department which compiled its data from the custom entries. The second source is the Tonga Development Bank which compiled its data from farmers lending from the bank. Thirdly is NRBT which collects its data from a survey as well as foreign earnings that comes through the banking system. Data from the Quarantine on volume of squash exported is also critical for reconciling the actual value and volume of squash.*

ⁱⁱⁱ *The establishment of the HETA Treatment plant at the Fua'amotu airport was developed to enable the exporting of papaya, eggplant, breadfruit, local mango and tomatoes. Some of the farmers claimed that inconsistent operation of the plant increase the risk for mass production of these fruits. Therefore minimize investment in these projects.*

^{iv} *MAF is currently seeking assistance from People's Republic of China on establishing a project on the Development of a Model Demonstration Farm, which will involve the completion of a feed mill, hatchery, commercial poultry and pig farm, agronomy and horticulture.*

^v *The average annual inflation rate is calculated using the average of the twelve months indices.*

^{vi} *The annualized inflation rate is calculated at two point of time such as the index in December 2002 to December 2001.*

See Notes to Statistical Tables

Notes to Statistical Tables

Financial years end in June.

Tables A1 - C2, Pages S1 - S18

Monetary data are sometimes adjusted to incorporate revisions received from the domestic banking system.

Table A1 - Pages S1 - S2

1. Comprises consolidated balance sheet of the NRBT and the commercial banks.
2. This includes the holdings of the Reserve Bank and the commercial banks.
3. Nonmonetary financial institutions (NMFI) are those which do not combine the taking of deposits with the extension of credit.

Table A2 - Pages S3 - S4

1. Comprises the consolidated balance sheet of the NRBT, commercial banks and the NMFI.
2. These data may differ slightly from the comparable data shown on Statistical Table S2 because of savings deposit holdings of the NMFI in the two Niuas.
3. Comprises bills and promissory notes issued by financial sector and held outside that sector.
4. Represents borrowing by Government from foreign sources for onlending to NMFIs

Table A3 - Page S5

1. Non-Financial Public Enterprises.
2. Non-Monetary Financial Institutions.

Table A4 - Page S6

1. Includes pre-decimal issues and a minor value of 50 seniti notes.
2. Includes pre-decimal issues and a minor value of \$1 and \$2 coins.

Table B1 - Pages S7 - S8

1. In March 1993, NRBT introduced a Required Reserve deposit for commercial banks. This was revised in December 1995, in September 1998, and in September 2000.
2. In April 1993, NRBT replaced Term Deposits of commercial banks with NRBT Notes.

Table B2 - Pages S9 - S10

1. These data sometimes differ slightly from the comparable data shown on Statistical Table S15.

Table B3 - Pages S11 - S12

1. These data sometimes differ slightly from the comparable data shown on Statistical Table S16.

2. Direct borrowing by NMFI from foreign sources. Some exchange risk is assumed by Government.
3. Represents borrowing by Government from foreign sources for onlending to NMFI. Exchange risk is carried by Government.

Table B5 - Page S14

1. Data exclude deposits held by the Government.

Table B6 - Page S15

1. Includes lending to the manufacturing, transport and communications, commerce and trade, construction, and services sectors.
2. Includes nonprofit bodies.

Table B7 - Page S16

1. Non-Financial Public Entities.
2. Includes lending to the manufacturing, transport, and communications, commerce and trade, construction, and services sectors.

Table C1 - Page S17

1. Interest rates listed are those available to general customers & to statutory boards.
2. This reflects average commercial bank published interest rates paid for savings deposits and for 3 to 48 month term deposits, weighted according to the amounts in these categories.

Table C2 - Page S18

1. Base rate is lowest rate charged. Prior to the December quarter 1992, this was the preferential rate. This is the average minimum prime rate published by the commercial banks.
2. This refers to the average minimum rate published by the commercial banks on their residential housing loans.
3. Apply to loans for export-oriented industries, manufacturing & raw materials processing, and tourism activities except restaurants.
4. This is the maximum rate published by the NMFI on their business loans.
5. Loans less than \$1,000 for activity in agriculture, fisheries and livestock.

Table C3 - Page S19

1. Short Term: Three months Treasury Bills except for Japan, Private Bill Rate.
2. Long Term Government Bonds: Ten year Government Bonds except for Australia, Treasury Bonds : 15 years.

Table D1 - Page S20

1. End-period, minimum retail price per litre of petrol sold by major distributors in Nuku'alofa, including sales tax.
End-period, most common (level 2) rate group including any surcharges.

Table D2 - Page S21

Data reflect the recorded values of Tongan agricultural products sold in Talamahu Market, the largest market in the Kingdom. The quality of these data, particularly in earlier periods, is suspect and should be used with care. In addition, as it is likely that this market is covering a declining share of the total trade in these products, longer-term trends should be interpreted with care.

1. Figures has been revised.
2. Comprising kape, cassava, taro, yams, sweet potatoes and mixed foods.

Table D3 - Page S22

1. Figures has been revised.
2. Comprising kape, cassava, taro, yams, sweet potatoes and mixed foods.

Table D4 - Page S23

1. Figures has been revised.
2. Comprising kape, cassava, taro, yams, sweet potatoes and mixed foods.

Table D5 - Page S24

1. CPI as published by the Statistics Department. The base period of November 2002 = 100.

Table E1 - Page S25

1. Source: Ministry of Finance Budget Statement Documents.

Table E2 - Page S26

1. Groupings are those used by Statistics Department in Statistical Abstract, 1987.
2. Includes Government Supplies.
3. Source: Ministry of Finance Budget Statement Documents.

Table E3 - Page S27

1. Comprises Cable & Wireless loan in Tongan Pa'anga.

Table E4 - Page S27

1. Comprises Tonga Broadcasting Commission and Primary Produce Export Limited (PPEL).
2. Source: Ministry of Finance Budget Statement Documents.

Table F1 - Page S28

1. Prior to the establishment of the NRBT, these assets were held by the Commissioners of Currency, the Commissioners of Coinage, Treasury and the BoT. This includes only the holdings of the Reserve Bank.
2. Imports, cif. in the year to date concerned. Where latest data is not yet available this is estimated by NRBT.

Table F2 - Page S29

1. This is NRBT's own estimates based on the Overseas Exchange Transactions (OET) records.

Table F3 - Page S30

1. Comprising kape, cassava, taro, yams, sweet potatoes and `mixed' foods.
2. Includes kava exports.

Table F4 - Page S31

Comprise kape, cassava, taro, yams, sweet potatoes and mixed foods. Given the non-homogenous nature of the group, movements in unit values should be assessed with caution.

Table F5 - Page S32

1. Including Hawaii and American Samoa.

Table F6 - Page S33

1. Data should be used with caution on account of difficulty separating tourist receipts from private remittances.
2. Recent data provided from the Tonga Visitors Bureau are provisional and are updated when available.

Table F7 - Page S34

1. Using the new HS (Harmonized System) it had an effect on the categories. Due to the introduction of the new HS in replacement of the SITC system, changes were made to all the categories of imports.

Table F8 - Page S35

1. Imports under aid or grants.

Table F10 - Page S37

Given the non-homogenous nature of some of these categories, movements in unit values should be assessed with extreme caution.

1. Comprises all categories of SITC code 732 for which volume data are collected. Unit values are affected by changes in the composition of these imports.

Table F11 - Page S38

1. Including Hawaii and American Samoa.

Table F13 & F14 - Page S40 & S41

1. The calculation of the bilateral exchange rates is based on the average of the mid-points published by the commercial banks for the concerned period.
2. On the 1st January 1999, the "euro" became the official currency for 11 European countries: Germany; France; Belgium; Spain; Ireland; Italy; Luxemburg; the Netherlands; Austria; Portugal and Finland.

Table F15 - Page S42

Note: These indices measure inflation in Tonga against those in the nominated countries adjusted for exchange rate movements. Each index measures the relative competitiveness between Tonga and the country specified. Increases in the index indicate that Tonga is becoming less competitive.

1. Figures has been revised due to the rebased of CPI to November 2002.
2. The nominal effective exchange rate index represents movements in the average of bilateral exchange rates with the pa'anga, weighted by current account shares.
3. The real effective exchange rate index measures the competitiveness of the Tongan economy against the countries specified weighted by their shares in Tonga's trade in goods and services.

Table G1 - Page S43
